## **Un-staffed Activities**

We do not have residential Staff or Instructors for the following activities.

### **Climbing/Abseil Tower**

We have a 30' climbing and abseil tower available with full equipment, or just the tower with your own equipment. However you need to arrange your own qualified Instructor.

### **Pioneering Equipment**

We have enough equipment; ropes, blocks, spars etc to make up to six major projects at the same time. This equipment can be hired by the week or weekend, for use on or off site. A list of kits available is shown on the back of the price list.

### **Orienteering**

We do not have a course laid out on site, but with 27 acres of woodland, over a variety of terrain, this is very easy to arrange. Suitable site maps are available from the Warden.

### **Water Activities**

As we have no Site Staff or water for canoeing on site, we have not invested in equipment. However the river Medway is only two miles away and is often used by Groups from our site. You would of course need to arrange your own equipment and Instructor.
