Hire of Pioneering Equipment

Please note that all equipment is hired out on the clear understanding that all losses or damage to equipment will be charged to the hirer.

We are having to make this point quite clear and require a signed understanding to this effect.

The cost of replacement items has risen so much in the past couple of years; the runway block costs £500 to replace, 18" pegs are now costing £2 each and to replace a broken cracked Maul Handle is £20. Ropes vary according to the size and are charged by the metre.

All charges for loss or damage will be raised after an inspection as soon as possible following your hire and return.

I understand that we are fully responsible for the replacement cost of damaged or lost items of all the equipment hired for use at Hamlet Wood or Off-site.
