Booking Deposits

Dear Leader

As already explained, in the year 2004 we had a very big increase in the number of cancellations and regrettably have had to change our booking rules.

A deposit will now be required for ALL bookings within 14 days of a telephone reservations or from the date of this letter.

As you will see from the price list, deposits will be a standard amount for buildings and your reasonable estimated numbers of campers. Your final bill will always be for actual campers, less your deposit.

We are sorry about this as it will cause us all more work, but we can not stand further losses on this scale should the trend continue.

Any refunds will be at the Wardens discretion and may apply if we are able to re-book the buildings or camp sites.

Most Sites have been charging deposits for some time, I hope that this will not stop Groups from booking with us and hope that you will agree and understand.

Should you have any questions, please feel free to give me a ring

Mick Mills - Warden
